

Education 3 + 1 Pathway - Financial Planning

Below is an **estimate** of what a sample student enrolled in the Education 3+1 Pathway can expect to pay for their degree. This sample includes actual costs for the 2022-23 and 2023-24 academic years and projected costs for the following two academic years. Costs for academic years beyond 2023-24 have not been determined at this time and are subject to change.

This estimate also includes an **example** scholarship amount. Scholarship and grant aid varies by student, depending on academic performance, financial need, and availability of funds. Most scholarship and grant aid is only available for undergraduate study. Graduate students are typically not eligible for grant aid, but Graduate scholarships are available upon application. Contact the Office of Financial Aid to discuss your financial aid eligibility.

This estimate does not include costs for room, board, transportation, or other miscellaneous expenses. See up.edu/finaid/costs for a complete list of additional costs to consider.
