| Session Objectives

Explore the indicators of schoolwide SEL and CASEL's 4 part framework for systemic, schoolwide SEL implementation.

Reflect with colleagues about vision-setting, adult social and emotional learning, classroom practices that promote SEL, and approaching data with an equity mindset.

Take away a concrete next step for advancing schoolwide SEL in your setting.

SEL is...

The process through which children and adults acquire and effectively apply the knowledge, attitudes, and skills necessary to understand and manage emotions, set and achieve positive goals, feel and show empathy for others, establish and maintain positive relationships, and make responsible decisions.

A group of diverse students are gathered around a desk, smiling and working together. One student in the foreground is wearing a pink hoodie and holding a green pencil. Another student with glasses and braids is leaning over, pointing at something on the desk. The background shows a classroom setting with a purple wall and a window. The text "HOW DO WE GET THERE?" is overlaid in white, bold, uppercase letters in the center of the image. There are also two white L-shaped corner brackets, one in the top left and one in the middle right.

SEL in the Classroom Self-Assessment

CASEL Guide to Schoolwide SEL

TOOL: SEL in the Classroom Self-Assessment

TEACHER/CLASSROOM: _____ DATE: _____

Use this self-assessment three to four times over the course of the year to assess your strengths and areas to develop as you promote SEL through explicit instruction, integration into academic instruction, and a supportive classroom climate. Place a check in the column that indicates the frequency of each indicator. For indicators that you rate as "sometimes" or "infrequently," consider what strategies, resources, or support you may want to use to deepen your SEL practice. For indicators you rate as "unsure," consider what additional information or feedback you want to gather.

Markers of SEL in the Classroom		Often	Sometimes	Infrequently	Unsure
Explicit Instruction	I use an evidence-based approach to teach social and emotional skills in a <u>sequenced, active, focused, and explicit</u> way and on a regular schedule.				
	I teach SEL in a way that is developmentally appropriate and culturally responsive for my students.				
Integration of SEL into Academic Instruction	My students lead routines, share their perspectives, and reflect on their experiences during SEL instruction.				
	SEL standards/goals are embedded into my academic lessons (see <u>sample lesson plans</u>).				
	Students make connections between SEL and what we're learning and initiate reflection and discussion.				
	I foster academic mindsets by helping students set goals, commending academic risk-taking and incremental progress, showing students how to correct mistakes, and framing struggle as a key part of the process of learning.				
	I select content and plan instruction that links to students' lived experiences and frames of reference and by anticipating support that individuals may need to access content and participate fully.				
	I design learning activities that allow students to explore issues that are important to them and co-create solutions to improve the classroom, school, or community.				
	Class time is balanced with periods of teacher-led instruction, student talk and interaction, and time to work/reflect alone.				
	I prepare students to engage in classroom discussions by
